

# USER STORIES

As the Assistant Director of Admissions,  
I want the tour options to be on the Home page  
So that users can easily access different tour options aside from the AR Tour.

As an Academic Program Coordinator,  
I want the department shortcuts to be visible  
so that students interested in the major/in the major can quickly get more insights or get to my office

As a tour guide administrator  
So that guides can have accurate information  
I want to be able to edit the information about buildings

As a new student  
so that I can find my way to buildings around campus  
I want to be able to search for a building and be guided there

As a campus tour guide,  
I want to be able to post event 'Lawn Stock' when users are nearby Comm Lawn  
so that the event can attract people from diverse majors

As a campus tour guide,  
So that I can give the most accurate information  
I want to be able to view information about buildings I select

As a new student  
So I know when the building's services are available  
I want to be able to view building hours both when selecting the building for navigation and when looking at the building

As a new student  
So that I can get more information about the campus  
I want to be able to schedule a tour with the admissions office from the app

As a new student  
So I know about upcoming events

I want the app notify me when I walk past a building with an upcoming event if that setting is enabled

As a returning student

So that i can understand more about campus

I want to be able to select information about landmarks on campus
